RE: Proposed NextBridge Infrastructure East-West Tie Transmission Project – Notice of Submission of the Environmental Assessment Report

Dear Neighbour,

NextBridge Infrastructure LP (NextBridge) has completed the Environmental Assessment Report (EA Report) to construct a new, approximately 450-kilometre double-circuit 230-kilovolt transmission line connecting the Wawa Transformer Station (TS) to the Lakehead TS in the Municipality of Shuniah near Thunder Bay, with a connection at the Marathon TS. The EA Report will be submitted on July 25, 2017.

A Draft EA Report was submitted to the Ministry of the Environment and Climate Change (MOECC) and made available for public review and comment from December 19, 2016 to February 28, 2017. NextBridge has updated the EA Report based on feedback received during the Draft EA review and comment period. As required under the *Environmental Assessment Act*, the EA Report will be made available for a round of public review and comment from July 25, 2017 to September 12, 2017. The EA Report will be available on July 25, 2017 on the Project website (www.NextBridge.ca) and at locations listed in the Notice included with this letter. As part of the submission process, interested parties are encouraged to review the EA Report and submit comments to MOECC by September 12, 2017. Additional information regarding the EA Report and comment submissions can be found in the Notice of Submission of the Environmental Assessment document included with this letter.

Your input is appreciated, and we plan to keep you informed as we continue to develop the Project. If you have any questions or comments, or if you require further information, please call our toll-free phone line at 1-888-767-3006, email info@nextbridge.ca and leave your contact information, or visit our web site at www.NextBridge.ca.

Sincerely,

Jennifer Tidmarsh
Project Director – East-West Tie Transmission Project
NextBridge Infrastructure
