NextBridge Infrastructure	Corinne Miller	Rev01	September 2018	Electronic	This list of studies and reports was revised to include recent archaeological and historical resource reports.

# 1. LIST OF STUDIES AND REPORTS

This appendix provides a list of environmental studies and reports, both those under the control of NextBridge Infrastructure LP (NextBridge) and completed in connection with the East-West Tie Transmission Project (Project), and those not under the control of NextBridge, of which NextBridge is aware, that have been completed in connection with the Project.

## 1.1 Studies and Reports under the Control of NextBridge

The following are environmental studies and reports completed in connection with the Project that are under the control of NextBridge:

- Geology, Terrain and Soils Baseline Report (Appendix 6-I);
- Natural Environment Existing Conditions Report (Appendix 12-I);
- Vegetation and Ecosystems Baseline Report (Appendix 12-II);
- Fish and Fish Habitat Field Survey in 2017 (Baseline) Report (Appendix 13-III);
- Wildlife and Wildlife Habitat Baseline Report (Appendix 14-II);
- Stage 1 Archaeological Assessment Reports (Appendices 15-I to 15-VI);
- Stage 2 Archaeological Assessment Reports (Appendix 15-VII and 15-VIII);
- Stage 3 Archaeological Assessment Report (Appendix 15-IX);
- Stage 1 Marine Archaeological Assessment, East-West Tie Transmission Line (Appendix 15-X); and
- Heritage Impact Assessment, East-West Tie Transmission Line (Appendix 16-III).

## 1.2 Studies and Reports not under the Control of NextBridge

The following are environmental studies and reports completed in connection with the Project of which NextBridge is aware but that are not under the control of NextBridge:

- Métis Nation of Ontario Potential Evaluation Criteria NextBridge East-West Tie Transmission Project (Caillou Group no date a) [Confidential document];
- Métis Nation of Ontario Integration Document (Calliou Group no date b) [Confidential document];
- Métis Nation of Ontario Project Specific Traditional Land Use Study and Evaluation Criteria Summary (Calliou Group 2016) [Confidential document];
- Métis Nation of Ontario Occupied Lands Report: NextBridge Infrastructure LP East-West Tie Transmission Project (Calliou Group 2017) [Confidential document];
- Interim Traditional Knowledge Assessment Related to the NextBridge East-West Tie Transmission Project Prepared for Long Lake No. 58 First Nation (Hensel Design Group Inc. 2015) [Confidential document];

## APPENDIX 4-I LIST OF STUDIES AND REPORTS

---

- System Impact Assessment Report (IESO 2014);
- Assessment of the Rationale for the East-West Tie Expansion Third Update Report (IESO 2015);
- Updated Assessment of the need for the East-west Tie Expansion (IESO 2017);
- Long Term Electricity Outlook for the Northwest and Context for the East-West Tie Expansion (OPA 2011);
- Updated Assessment of the Rationale for the East-West Tie Expansion (OPA 2013);
- Assessment of the Rationale for the East-West Tie Expansion Second Update Report (OPA 2014);
- East-West Tie Transmission Project Interim Report (Red Rock Indian Band 2016) [Confidential document];
- Proposed East-West Tie Transmission Project Final Report of Fort William First Nation TK Study (Fort William First Nation 2017) [Confidential document]; and
- Long Lake #58 First Nation Final report: NextBridge Infrastructure East-West Tie Engagement (Aboriginal Business Network 2014) [Confidential document].
